ADMISSIONS OPEN

NEW BATCH · NEW SYLLABUS · DECEMBER 2026

AI-POWERED
Data Analytics & Reporting

A complete **project-oriented program** — 3 months of skill development, then 3 months of real-time project work with **internship & experience letter**.

WEEKEND BATCH
05 DEC 2026

WEEKDAYS BATCH
08 DEC 2026

EARLY-BIRD OFFER
Discounts + Bonus

A NOTE BEFORE YOU BEGIN

Your degree got you here. Skills will take you further.

Every year, lakhs of students graduate — and many hear the same line in interviews: *"Sorry, you don't have the skills we need."* Recruiters rarely ask what you studied. They ask what you can **do**.

This program is built to answer that question. In six months you go from learning the tools companies use today — AI, Excel, Power BI, Tableau, Fabric, SQL and Python — to applying them on real-time projects, with an internship and an experience letter to show for it.

PROGRAM AT A GLANCE

6
Months
3 Months Skill Development + 3 Months Projects & Career Guidance

4
Skill Modules
AI · Analytics · DB · Automation

15+
Tools & Libraries
Industry-used stack

2
Documents
Certificate + Experience Letter

Who is this for?

- **College students** who want job-ready skills before they graduate
- **Freshers** looking for their first role in analytics or IT
- **Working professionals** who want to upskill with AI & automation
- **Career switchers** moving into data from any background

HOW THE 6 MONTHS WORK

Your 6-Month Journey

Two clear phases: first you build the skills, then you prove them on real-time work.

01

PHASE 1 · MONTHS 1 – 3

Skill Development

- **AI Tools**
  Claude · ChatGPT · Copilot · Gemini
- **Analytics Tools**
  Microsoft Fabric · Advanced Excel · Power BI · Tableau
- **Database**
  SQL Server
- **Automation Tools**
  Python with libraries · VBA Macros

02

PHASE 2 · MONTHS 4 – 6

Project & Career Guidance

- **Real-time projects**
  + internship
- **GitHub & portfolio**
  show your work to employers
- **Career guidance**
  + placement assistance
- **LinkedIn & profile**
  optimization & profile building

★

THE OUTCOME

Course Completion Certificate + Experience Letter

Proof that you've done the work — not just attended classes.

SKILL DEVELOPMENT · MONTHS 1 – 3

The Syllabus

01 MODULE 1 AI Tools

Learn to work **with** AI — not compete against it.

C Claude
Analyse data, draft reports & summaries, and build with AI.

G ChatGPT
Prompting, research, content and everyday productivity.

Co Copilot
AI assistance inside Excel, Word & PowerPoint.

Ge Gemini
Research and AI help across Google Workspace.

02 MODULE 2 Analytics Tools

From spreadsheets to enterprise dashboards.

F Microsoft Fabric
One platform for data engineering, warehousing & BI.

- Lakehouse & data pipelines
- Connecting Fabric to Power BI

X Advanced Excel
The analyst's everyday tool — mastered.

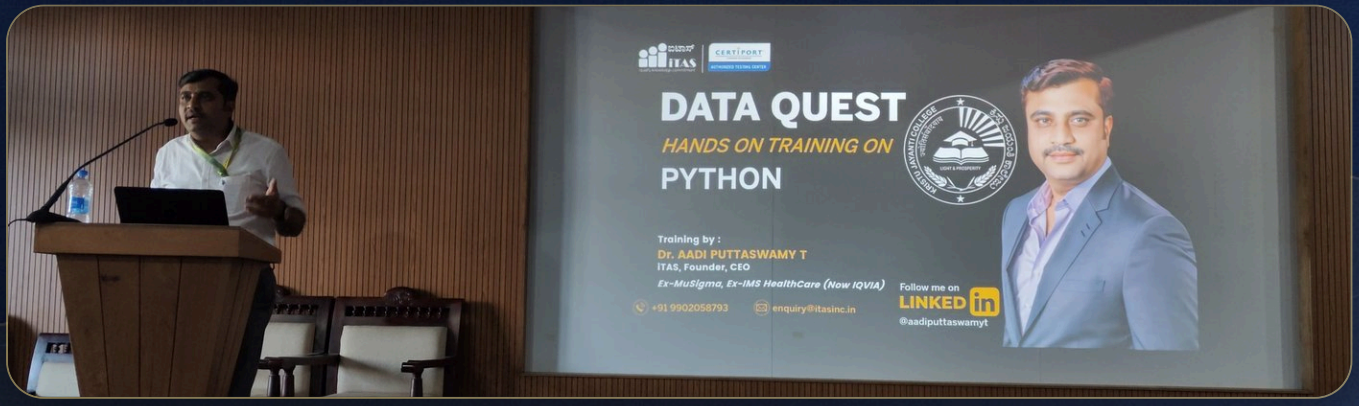

- Lookup & logical formulas, Pivot Tables
- Power Query & interactive dashboards

BI Power BI
Turn raw data into decision-ready dashboards.

- Data modelling & DAX measures
- Interactive reports & publishing

T Tableau
Visual analytics and data storytelling.

- Charts, calculated fields & filters
- Dashboards & stories

03 MODULE 3 Database — SQL Server

SQL is the language of data. Every analyst role expects it — so we make you confident with it.

- Queries — basic to advanced
- Joins, aggregations, subqueries & views
- Practice on real business datasets
- Feeding SQL data into Power BI & Excel

query.sql

```sql
SELECT region,
       SUM(sales) AS revenue
FROM   orders
GROUP BY region
ORDER BY revenue DESC;
```

04 MODULE 4 Automation Tools

Stop doing repetitive work by hand.

Py

Python with Libraries

Clean, analyse, visualise and automate data with code.

DATA HANDLING

Pandas · NumPy

Load, clean, reshape & calculate

VISUALISATION

Matplotlib · Seaborn · Plotly

Static & interactive charts

EXCEL AUTOMATION

OpenPyXL · XlsxWriter

Generate & format Excel reports

VB

VBA Macros

Automate repetitive Excel tasks and recurring reports — save hours every week.

- Record & edit macros
- Buttons, loops & report automation

monthly_report.py

```python
import pandas as pd
# load & clean sales data
df = pd.read_csv("sales.csv")
df = df.dropna()
summary = df.groupby(
"region")["sales"].sum()
# export formatted report
summary.to_excel(
"report.xlsx")
```

AUTOMATE

report.xlsx — auto-generated

Region	Sales	Share
South	21,40,500	45%
West	13,10,200	28%
North	8,20,900	17%
East	4,90,300	10%

TOTAL 47.6L

MONTHS 4 – 6

Project & Career Guidance

Skills get you noticed. Proof of work gets you hired. Phase 2 turns what you learned into experience you can show.

Real-Time Projects
Work on industry-style business projects using the full tool stack.

Internship
Hands-on experience that goes on your résumé.

GitHub
Publish your projects and code where recruiters can see them.

Career Guidance
Clear direction on roles, skills and your next steps.

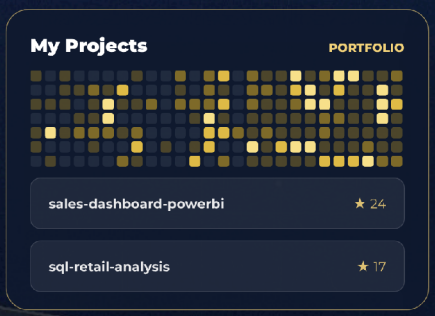

Placement Assistance
Support to reach the right interviews and opportunities.

LinkedIn Optimization
A profile that gets noticed by recruiters.

Profile Building
A résumé that shows real skills and real projects.

Portfolio Creation
Showcase your dashboards and analyses to employers.

We don't just teach — we guide your career. 3 + 3

ON COURSE COMPLETION

You Receive

Course Completion
Certificate

Experience
Letter

PROGRAM BENEFITS

What Makes It Different

01 **100% Practical & Real-Time Project-Oriented Training**
Hands-on from day one — not theory-only classes.

02 **Industry-Related Topics**
Learn what companies actually use and expect.

03 **Recordings for Every Class**
Missed a session? Revise anytime, at your own pace.

04 **Notes, Materials, Datasets & Exercises**
Everything you need to practise every concept.

05 **Assignments & Projects for Every Skill**
So you build real proof of work, skill by skill.

WHY CHOOSE ITAS?

Numbers That Speak

Since 2012, iTech Analytic Solutions has trained students, freshers, professionals and corporate teams in data analytics, BI and AI.

14
Years of Excellence
Since 2012

21+
Years Trainer Experience
Learn from experienced trainers

1,00,000+
Learners Trained
Professionals, students, freshers & individuals

500+
Corporate Trainings
Delivered by iTAS

85+
Top Clients
National & International

Certiport
Microsoft Certiport Center
Official certification centre

★
Referred & Placed
Many candidates referred and placed over the years.
